HEAT PUMPS

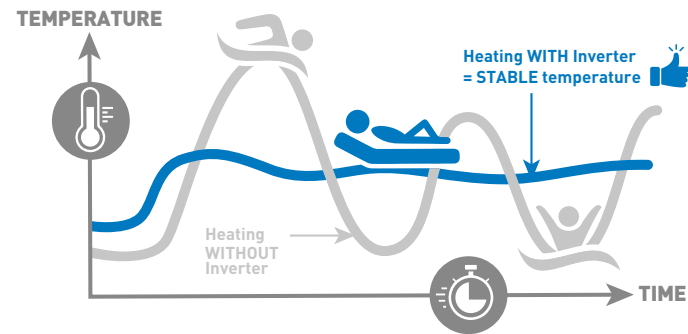

IN-Tech

 A COMPREHENSIVE RANGE OF HEAT PUMPS TO MEET YOUR NEEDS!

FULL INVERTER, COMFORT AT MINIMAL COST!

Full Inverter technology is the combination of an Inverter compressor and Inverter fan. With this combination, the power can be precisely adjusted depending on the weather and the pool's energy requirements, whilst minimising energy consumption.

EFFICIENT: rapid rise in temperature and precise maintenance at the setpoint for unrivalled bathing comfort.

ECONOMICAL: up to 30% energy savings compared to a classic heat pump!

SILENT: +/- 20 dB in regulation mode.

CONNECTED: control the temperature of your pool remotely via the Bluetooth or Wi-Fi connection.

LONG-LASTING: robust components and high-quality materials that will stand the test of time.

R32 FLUID
More efficient & sustainable

- **60% reduction** in greenhouse gas emissions
- **10% less fluid** compared to R410A
- **Easy** to use and recycle
- **Zero impact** on the ozone layer

VENTILATION

LATERAL

S.LINE® PRO Fi

- Ideal for small spaces, minimum 20cm clearance from wall.

FRONTAL

ENERGYLINE® PRO Fi

- Excellent efficiency of heat exchanges.

EASY TEMP® Fi

VERTICAL

SUMHEAT Fi

- Smaller footprint, requiring less space for installation.

GOOD TO KNOW

To maximise energy savings and minimise the operating noise of your Full Inverter heat pump, combine it with a variable speed pump and cover your pool (with a cover or shelter)!

EXPERT LINE

3 YEARS WARRANTY

OR

5 YEARS if bought from a Totally Hayward pool dealer
